

Deadly Deceiver

She takes you away in a moment
And pulls you into her spell
First you're blinded by lust
But soon you're living in hell

You're riding a wave of confusion
But that's the game that she plays
Now you're caught in a trap
Watching your life fade away

CHORUS:

She's a deadly deceiver
Who will she fool tomorrow?
Don't believe her
Don't be a fool
Watch for the deadly deceiver

Her every move makes you crazy
As she devours your soul
You're just numbed by her trance
But sense you're losing control

Each time you try to break free
She charms you back to your cage
You'd better call all your strength
Before she locks you away
